

# Somak Aditya

Research Scientist  
Adobe Research  
Bangalore, Karnataka 560037

@ Email: [saditya@adobe.com](mailto:saditya@adobe.com)  
Website: <http://bit.ly/2AxUuhX>

## RESEARCH INTERESTS

---

My current interests revolve around developing hybrid statistical and symbolic models that can perform higher-level reasoning by leveraging background knowledge. I am deeply motivated by interdisciplinary efforts and I am a believer of the deep potential impacts of the joint efforts of symbolic reasoning and probabilistic modeling in the field of Artificial Intelligence.

## EDUCATION

---

*Doctor of Philosophy*, Computer Science **Arizona State University**, Tempe, AZ  
Dissertation Title: Knowledge and Reasoning for Image Understanding 2014-2018  
Advisors: Prof. Chitta Baral, Dr. Yezhou Yang  
GPA 4.0 (out of 4.0)

*Master of Engineering*, Computer Science **Indian Institute of Science**, Bangalore  
Dissertation Title: Generic Incremental K-Means Clustering 2009-2011  
Advisor: Professor M. Narasimha Murty  
GPA 7.3 (out of 8.0), 2<sup>nd</sup> in Class

*Bachelor of Engineering*, Computer Science **Jadavpur University**, Kolkata  
CGPA 8.87 (out of 10), 7<sup>th</sup> in Class 2005-2009

## PROFESSIONAL EXPERIENCE

---

*Adobe Research (BEL)* September 2018 – Present  
Research Scientist  
As a Research Scientist, I extensively collaborate with other researchers and product managers to understand product needs, formulate research problems that revolves around business use-cases. Interesting projects include marketing knowledge graph creation, diversity in sequence recommendation, and storytelling from data. My other responsibilities include interviewing interns and incoming researchers, running summer internships and mentoring research associates.

*Strand Life Sciences Pvt. Ltd., Bangalore* December 2011 – July 2014  
Specialist Software Engineer (III)

Worked in the development of RNA-Seq spliced aligner and the user interface for the project from scratch. This was one of the main features in the Avadis-NGS 1.4 release. I also worked in the algorithm development and implementation of SNP detection in targeted regions, base-quality recalibration and local realignment. I contributed in a number of enhancements and optimizations in different stages of the Avadis-NGS SNP-Detection workflow.

*Yahoo Software Development India Pvt. Ltd., Bangalore*      July 2011 – November 2011  
Senior Software Engineer

The team was in charge of creating a website to provide a unifying experience to the advertisers to launch their campaigns across all websites of Yahoo. I worked in the creation of the data model used and a part of the user interface.

## TEACHING EXPERIENCE

---

*Teaching Assistant, Department of Computer Science, Arizona State University*    2014 – 2016

- CSE-576 Natural Language Processing, Fall 2015 and 2016
- CSE-471 Introduction To Artificial Intelligence, Spring 2016
- CSE-310 Data Structures and Algorithms, Spring 2015

## INTERNSHIPS

---

*Cognitive Analytics, Verisk Analytics, New Jersey*      May 2017-Aug 2017

Cognitive Analytics and Machine Learning Research Intern

Worked under Dr. Maneesh Singh, director of Image and Video Analytics, JDE, Verisk Analytics. Taking a detour from my PhD research, we explored Generative Adversarial Networks, that can utilize knowledge from pre-trained experts, which is aimed to generate complex images that depict situations (objects, actions and objects interacting through actions). I also assisted in several other projects (Visual Semantic Role Labeling, Situational Image Generation using Blender), alongwith was responsible for screening incoming Ph.D. candidates for full-time and intern positions.

*IBM India Research Labs, Delhi*      May 2015-Aug 2015

Research Intern, Cognitive System Solutions

Worked in Important Event and Entity Detection from Financial News Articles. I successfully created a reasoning framework based on an automatically constructed Knowledge Base of Financial Terms from Investopedia and manually created a Gold-standard for evaluating the system.

## ACADEMIC ACHIEVEMENTS

---

- **Assistantship 2018** The research assistantship is gifted by Verisk Analytics based on the internship.
- **Fellowship 2016, 2017, 2018** Awarded Partial University Graduate Fellowship from Arizona State University. (\$2k for Spring-2016, \$2.5k for Spring-2017, \$4k for Spring-2018)
- **Fellowship 2014** Awarded CIDSE Doctoral Fellowship from Arizona State University. (\$15000 for 2014-2015. \$30000 in total with assistantships.)
- **Fellowship 2009-11** Awarded MHRD Scholarship for qualifying GATE, 2009 (Rs. 8000 p.m.)
- **GATE 2009** AIR (All India Rank) 15<sup>th</sup> in Graduate Aptitude Test in Engineering (GATE) 2009, entrance exam of the IISc & IITs, in Computer Science & Engineering.
- **WBJEE, 2005** Ranked 105<sup>th</sup> in West Bengal Joint Entrance Examination, 2005 for Engineering Entrance (out of over 50000 candidates)

## PROFESSIONAL SERVICES

---

- Organizer
  - Integrating learning of Representations and models with deductive Reasoning that leverages Knowledge, KR 2018 (<https://sites.google.com/view/r2k2018/home>)
- Panelist: IJCAI 2019 Doctoral Consortium Career Panel
- Conference Reviewer: AAAI (2020, 2017), ICRA (2020), IJCAI (2017, 2016)
- Journal Reviewer: IEEE TIP, AIJ, CVIU, The Visual Computer, Robotics and Autonomous Systems (RAS)
- PC Member: AAAI 2020, Cognitive Vision 2019 (ACS at MIT)

## PROJECTS (DURING PHD)

---

*Understanding images and videos using a combination of Computer Vision, Statistical and Logical Reasoning*

Advisors: Prof. Chitta Baral, Dr. Yezhou Yang

Arizona State University

Collaborator: Prof. Yiannis Aloimonos

University of Maryland, College Park

i) Solving Image Riddles using Vision and Reasoning, ii) Visual Question Answering using Deep Learning and Probabilistic Soft Logic, iii) Image Caption Generation Through Knowledge Graphs from Images, iv) Integrating Spatial Knowledge for Visual Reasoning

*Compositional and Generative modeling of Images from text*

Advisors: Dr. Yezhou Yang

Arizona State University

Collaborator: Dr. Maneesh Kr. Singh

Verisk Analytics, New Jersey

The goal of the project is to learn a generative model of natural images that abides by properties of compositionality with respect to an input condition (text or features).

*Building a Knowledge Parser for Formal Representation of English Text*

Advisor: Prof. Chitta Baral

Arizona State University

Parsing Natural Language Text and Creating a Knowledge Graph using a combination of Rule-based and Machine Learning Techniques.

*Integrating Statistical and Logical Approaches in Recognizing Social Constructs from Textual Conversation*

Advisor: Prof. Chitta Baral

Arizona State University

Our goal was to recognize high-level social constructs such as Leadership and Status from textual conversation using an approach that integrates statistical methods and symbolic logic based methods.
